

Appendix 1 — Sustainable Procurement Commitments

Sustainow Technologies Private Limited · KlimaGuard Kids · RFPS-NYH-2026-503931

■ **Economic pillar:** We prioritise local Indian talent, MSME contractors for field work, and open-source reuse that reduces duplicate procurement spend for partners.

■ **Social pillar:** Women co-founded leadership; child-safeguarding by design (no child accounts); inclusive school/CHW pilots; commitment to non-discrimination and safe labour practices with contractors.

■ **Environmental pillar:** Digital-first delivery; efficient public climate APIs; minimize travel via remote enablement; product purpose is climate-health anticipatory action (SDG 13 + 3).

Integration in contract execution: If awarded, we will (1) publish open releases to avoid lock-in, (2) measure pilot carbon/travel modestly and prefer remote training, (3) include women and local facilitators in field teams, (4) report sustainability actions in quarterly VF updates, and (5) keep child data minimization as a hard requirement.
